

Nuclear Latency (NL) Dataset  
Country Coding Sheets

**INDONESIA**  
**COW COUNTRY CODE: 850**

No evidence was found that supports Indonesia pursuing ENR technology. An electronic search of *Nuclear Fuel Search*, *Nuclear News*, and *The Bulletin of Atomic Scientists* revealed no indication that the country pursued ENR technology. Poneman states that Indonesia could not even assemble a research reactor provided by the Soviet Union in the 1960's.
